DETAILED ACTION

Status of Claims

Claims 35-42 and 51-66 are pending in this office action. Claims 35, 51 and 59 are amended.

Response to Arguments

1. Applicant's arguments filed 07/22/2008 have been fully considered but they are not persuasive. The applicants' attempt to overcome the 101 rejection by amendment results in the addition of new matter. No reference is made in the specification to the method being computer implemented or the use of computing devices. The specification simply makes reference to the electronic transfer of funds, which is old and well known, and does not indicate that the applicant was in possession of a computing device to implement the method claimed. Therefore, the 101 rejection is maintained. See MPEP 706.03 (o) [R-3].

A review of the claims and updated search necessitated the rejections below.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

Art Unit: 3696

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 35-42 and 51-66 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 35, 51 and 59, lines 1 and 2 are not described in the specification as explained in the response to arguments above.

Conclusion

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
